University of Miami Miller School of Medicine

International Endoscopic Sinonasal and Skull Base Anatomy and Surgical Techniques Course

OVERVIEW

This endoscopic sinus surgery course is specifically designed for otolaryngologists, neurosurgeons, ophthalmologists, otolaryngology residents, and/or rhinology fellows, wishing to improve their sinonasal endoscopic surgical skills, through a better understanding of the complex three dimensional endoscopic anatomy of the sinonasal and skull base area. This course focuses primarily on sinonasal, orbital, and skull base ANATOMY. Therefore, medical therapy of CRS, and other inflammatory or neoplastic diseases, will not be the focus of this course, but will be covered during the panel session. Clinical applications for all of the surgical techniques and approaches discussed will be reviewed, utilizing illustrative videos within all presentations. Experienced rhinology and endoscopic skull base faculty from throughout the country will share simple to use, consistent, and reliable endoscopic anatomical landmarks, which are time-tested and used in their own day to day practice, for even the most complex cases, without the need or dependence on intraoperative computer navigation. Unlike other similar weekend courses currently available, this course provides significant lab time at a reasonable cost. Eight hours of hands-on lab sessions, utilizing fresh specimens, assures that there is ample time for the participant to practice all of the surgical techniques discussed, under faculty supervision. There is significant interaction with the faculty during lectures and cadaveric lab sessions. This is a great "refresher" course for any surgeon who currently performs anywhere from the most basic, to the most advanced, endoscopic sinonasal surgery. This course includes access to Anspach's state of the art cadaver dissection lab in beautiful Palm Beach Florida, only a couple miles from the Honda Classic PGA golf course as well as the beaches of Palm Beach County. The facility, and suggested adjacent hotel, are approximately 15 minutes from Palm Beach Airport, 30 minutes from Ft Lauderdale airport, and 1 hour from Miami International Airport.

TEACHING MATERIALS PROVIDED:

Slide handouts of the presentations will be provided in a complementary University of Miami flash drive. Lab participants are also given complementary copies of Dr Casiano's "Endoscopic Sinonasal Dissection Guide" from Thieme Publishers (www.thieme.com). This spiral-bound book is designed for the lab, and demonstrates the most relevant techniques (discussed during the course) that enable residents, fellows, or inexperienced practitioners, to safely navigate the complex anatomy of the nose and paranasal sinuses. Organized in a stepwise approach and designed to mirror an inexperienced surgeon's progression in the lab, this succinct and user-friendly manual includes the most pertinent information on instrumentation, anteroposterior and postero-anterior approaches through the ethmoids, and other basic and advanced surgical techniques. Each chapter presents color sagittal and endoscopic images, accompanied by radiologic correlations, with key anatomical landmarks highlighted throughout, in addition to 5 video presentations focusing on all the teaching points addressed throughout this course and contained within the book." The participants are taught how to identify and differentiate anatomical landmarks used for primary cases, versus revision and more advanced cases, utilizing teaching techniques developed at the University of Miami, and time-tested over 20 years. Our goal is to make it a truly unique learning experience.

TARGET AUDIENCE

This program is designed to meet the educational needs of practicing community otolaryngologists, neurosurgeons, ophthalmologists, rhinology fellows, and otolaryngology residents.

Although all of the lectures are provided in English, there will be simultaneous translation in Spanish for our international participants.

OBJECTIVES

At the completion of this course, participants will be able to:

- Differentiate rhinogenic from nonrhinogenic headaches and facial pain
- Determine what surgical treatment options are available for common sinonasal inflammatory diseases and neoplasms of the nose, paranasal sinuses, and adjacent skull base and orbit.
- Use well established, easy to use, endoscopic sinonasal landmarks, to facilitate the performance of common endoscopic surgical procedures
- Determine which anatomical landmarks are better suited for primary cases, versus more advanced/revision cases
- Use endoscopic sinonasal landmarks to safely predict the appropriate trajectory through the sinonasal anatomy, to navigate throughout the sinonasal tract safely, thereby reducing the risk for serious orbital or skull base complications
- Employ appropriate surgical coding after endoscopic sinus surgery.

ACCREDITATION

The University of Miami Leonard M. Miller School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing education for physicians.

CREDIT DESIGNATION

The University of Miami Leonard M. Miller School of Medicine designates this educational activity for a maximum of 17.00 AMA PRA Category 1 Credits. Physicians should only claim credit commensurate with the extent of their participation in the activity.

DISCLOSURE AND CONFLICT OF INTEREST

All conflicts of interest of any individual(s) in a position to control the content of this CME activity will be identified and resolved prior to this educational activity being provided. Disclosure about provider and faculty relationships, or the lack thereof, will be provided to learners.

SERVICES FOR THE DISABLED

Please contact Ivis Perez prior to January 5, 2014 should you have any special needs that may require additional assistance. A conference staff member will contact you to discuss these special requirements.

REGISTRATION CANCELLATION POLICY

Refunds will be made for a fee of \$75 if written notice of cancellation is received prior to December 31, 2013. In cases where a course is cancelled due to insufficient registrations, a full tuition refund will be made.

International Endoscopic Sinonasal and Skull Base Anatomy and Surgical Techniques Course

FRIDAY, JANUARY 17, 2014

6:00 – 8:00 pm

Cocktail Reception:

Embassy Suites Verdea Wine Bar

SATURDAY, JANUARY 18, 2014

6:30 – 7:30 am

Breakfast – Synthes Lab Educational Center

7:30 – 7:50 am

Registration – Synthes Lab Educational Center

7:50 – 8:00 am

Introduction and Welcome Remarks

Roy R. Casiano, MD

Moderator: Jose Ruiz, MD

8:00 – 8:20 am

CT Anatomy of the Paranasal Sinuses Orbit and Skull Base

Jose W. Ruiz, MD

8:20 – 8:40 am

Navigating without a Navigator: Critical Landmarks for Advanced Sinonasal Disease

Seth Lieberman, MD

8:40 – 9:00 am

Septal and Turbinate Anatomy: Septoplasty and Turbinate Reduction Techniques and Indications

Lori Lemonnier, MD

9:00 – 9:20 am

Vascular Anatomy of the Nose, Sinuses, and Skull Base: Management of Epistaxis and Vascular Injuries

Amy Anstead, MD

9:20 – 9:40 am

Break with Exhibitors

Moderator: Adam Folbe, MD

9:40 – 10:00 am

Frontal Sinus Anatomy: From Balloons to Drill-Outs

Adam Folbe, MD

10:00 – 10:20 am

Orbital and Lacrimal Anatomy: Indications for Orbital Decompression and Dacrycystorhinostomy

Sara Wester, MD

10:20 – 10:40 am

Endoscopic DCR, Orbital Decompression, and Removal of Orbital Neoplasms

Arjuna Kuperan, MD

10:40 – 12:00 am

Panel: Recalcitrant Sinonasal Disease: Pearls and Pitfalls

Moderator: Bellechew Tessema, MD

Panelists: William Collins, MD
Leonardo Torres, MD
Seth Brown, MD
Amy Anstead, MD
Viviana Temino, MD
Lauren Fine, MD

12:00 – 12:30 pm

Lunch with Exhibitors

12:30 – 5:30 pm

ENDOSCOPIC ANATOMY HANDS-ON CADAVER DISSECTION LAB

12:30 – 1:15 pm

Faculty Prosection: Ethmoidectomy, Sphenoid, Maxillary, and Frontal Sinusotomies, Sphenopalatine / Vidian Foramina, and Pterygomaxillary space

Roy R. Casiano, MD

January 17-19, 2014

Program Agenda

3:00 – 3:30 pm Faculty Prosection: Extended Frontal Sinusotomies (Lothrop Procedure)
Roy R Casiano, MD

7:00 -8:30 pm **Cocktail Reception:**
Embassy Suites Verdea Wine Bar

SUNDAY, JANUARY 19, 2014

6:30 – 7:30 am Breakfast – Synthes Lab Educational Center

7:30 – 7:50 am Registration – Synthes Lab Educational Center

Moderator: Deya Jourdy, MD

8:00 – 8:20 am **Repair of Skull Base Defects: Meningoencephaloceles and Latrogenic CSF Leaks**
Deya Jourdy, MD

8:20 – 8:40 am Medial Maxillectomy, and Endoscopic Approaches to the Pterygomaxillary Space, Infratemporal Fossa, and Meckel's Cave
Anderson Eloy, MD

8:40 – 9:00 am Anterior Skull Base Resection and Endoscopic Approaches to the Anterior Cranial Fossa
Zoukaa B. Sargi, MD

9:00 – 9:20 am Sellar and Suprasellar Approaches
Jacques J. Morcos, MD

9:20 – 9:40 am Endoscopic Approaches to Clival and Petroclival Lesions, and Odontoid Decompression
Samy Elhammady, MD

9:40 – 10:00 am Break with Exhibitors

10:00 – 10:20 am Management of Sinonasal Neoplasms in Children
Ramsey Younis, MD

10:20 – 10:40 am Diagnosis and Management of Olfactory Disorders: What's New?
Bradley Goldstein, MD

10:40 – 11:00 am Nonrhinogenic Headaches: How Can we Differentiate?
Teshamae Monteith, MD

11:00 – 12:00 pm Rhinologic Procedures: What's New in Coding?
Seth Brown, MD

12:00 – 12:30 pm Lunch with Exhibitors – Synthes Lab Educational Center

1:00 – 5:30 pm **ENDOSCOPIC ANATOMY HANDS-ON CADAVER DISSECTION LAB**

1:00-1:30 pm Faculty Prosection: DCR, Orbital Decompression, Anterior and Posterior Ethmoid Arteries, Extended Sphenoid Sinusotomy
Roy R Casiano, MD

3:00-3:30 pm Faculty Prosection: Sella Turcica, Suprasellar Approach, Cavernous Sinus, and Transpterygoid Approach to Meckel's cave (V2 and V3)
Roy R Casiano, MD

5:30 pm Meeting Adjourns

International Endoscopic Sinonasal and Skull Base Anatomy and Surgical Techniques Course

LOCATION

**Synthes Medical
Education Center**
4600 Riverside Drive,
Palm Beach Garden, FL 33410

ACCOMMODATIONS

Embassy Suites Palm Beach Gardens
4350 PGA Boulevard
Palm Beach Gardens, FL 33414

Call Embassy Suites reservation at 1-800-548-8690 and reference **University of Miami Course** to receive the discounted group rate of \$165.00 plus tax per night.

The hotel extends the group rate 3 days pre and post conference dates based on availability. Guest room types cannot be guaranteed and rooms will be reserved on first-come, first served basis. Please do not delay in making your reservation

Activities within 10 minute drive

Deep Sea Fishing – Sailfish Capital of the World

Beautiful Beaches
